Re: Alliance Sand, Reservoir A
Cib Jeff Sand, Reservoir A
ANSELM COULEE FIELD
Lafayette Parish, Louisiana

Dear Commissioner Asprodites:

Application is hereby made on behalf of **DAVIS PETROLEUM CORPORATION** for the calling of public hearings, after legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters relating to the Alliance Sand, Reservoir A, and the Cib Jeff Sand, Reservoir A, all in the Anselm Coulee Field, Lafayette Parish, Louisiana:

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the Alliance Sand, Reservoir A, and the Cib Jeff Sand, Reservoir A, all in the Anselm Coulee Field, Lafayette Parish, Louisiana, said units to be designated ALL RA SUA and CIB J RA SUA, all as shown on the plats attached hereto and made a part hereof.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
3. To provide that any future wells drilled to the Alliance Sand, Reservoir A, and the Cib Jeff Sand, Reservoir A, all in the Anselm Coulee Field, should be located in accordance with the spacing provisions of Statewide Order No. 29-E.

4. To provide that the Commissioner of Conservation should be authorized to reclassify each of the sands and reservoirs by supplemental order without the necessity of a public hearing if the producing characteristics of each reservoir changes and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.

5. To consider such others matters as may be pertinent.

The Alliance Sand, Reservoir A, in the Anselm Coulee Field, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 12,288 feet and 12,311 feet (electrical log measurements) in the Texaco Inc. – Leonie Hebert Unit 2 Well No. 1, located in Section 34, Township 11 South, Range 4 East, Vermilion Parish, Louisiana.

The Cib Jeff Sand, Reservoir A, in the Anselm Coulee Field, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 13,145 feet and 13,215 feet (electrical log measurements) in the Phillips Petroleum Company – Blanchard B No. 1 Well, located in Section 26, Township 11 South, Range 4 East, Vermilion Parish, Louisiana.

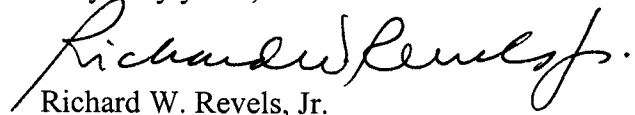

Pertinent data, including well logs, may be obtained **AT THE COST OF THE REQUESTING PARTY** from Mr. David Comeaux at Leon Comeaux & Associates, Post Office Box 53922, Lafayette, LA 70505, Telephone Number (337)233-9839.

Pursuant to the Revised Rules of Procedure, pre-application notice was given; however, no request for the conference was received. Therefore, the conference tentatively scheduled for Friday, October 5, 2001, WILL NOT BE HELD.

Attached hereto and made a part hereof are plats outlining the applicant's proposals and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom a copy of this pre-application notice is being mailed. Pursuant to the Revised Rules of Procedure, such plats (being the same plats attached to the notice dated September 14, 2001) and list of parties are being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the plats and/or list of parties will be furnished to any party requesting copies. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed is our check on behalf of the applicant, in the amount of \$1,400.00, made payable to the Office of Conservation representing the required hearing application fee.

Very truly yours,

Richard W. Revels, Jr.
